

November 16, 2017

Fire Chief Eric Robertson
Valley Regional Fire Authority
1101 D Street NE
Auburn, Wa 98002

Chief Robertson:

Washington Surveying and Rating Bureau (WSRB) has completed its evaluation of the fire protection capabilities of your community as they relate to fire insurance rating. We wish to inform you that the Protection Classification (PC) for Algona has remained a Protection Class 4.

A Protection Class (PC) 4 rating will apply to dwelling and commercial properties located in the community within five road miles of a responding fire station and having standard fire hydrant distribution and water supply. Properties in the community not meeting the above requirements will receive a different PC rating. Protection Class ratings for individual dwelling and commercial properties are available by calling WSRB Customer Service at (206) 217-0101 or emailing customerservice@wsrb.com.

We wish to thank you, Deputy Chief Olson, Fire Marshal Stewart, and Captain Thompson for their work and cooperation during the evaluation.

Please find enclosed a copy of the new Protection Class Report. This report shows the various items evaluated and points associated with each item. The points total for all items determines the Protection Class of the community.

This survey was not conducted for property loss prevention or for life safety purposes. The purpose was to gather information needed to determine a fire insurance relevant Public Protection Classification that may be used to develop fire insurance rates or loss costs. Our evaluation criteria incorporate many national recognized standards, such as those developed by NFPA and AWWA, and has been filed with and approved by the Washington State Office of Insurance Commissioner.

If you have any questions, please let us know.

Sincerely,

Eric Cunningham
Fire Protection Analyst
